Ref : 1011

NUT/PL 944/13

### Presentation :

*Box of 60 vegetable capsules.*

### Directions :

*1 capsule per day or as advised*

### Do not use: :

*In case of hyperthyroidism*

**ACTYR** is a food supplement specially formulated to contribute to support the basic metabolism and allows the body to better exploit the elements brought by food to rebuild itself, keep itself in good conditions, purify itself and maintain its temperature to an optimal level.

Studies show that some elements are essential to a good thyroid-function. A deficiency in those various nutrients can lead to a functional deficiency, either from an absence of fundamental substrate, or from an enzyme deficiency.

In complement of a balanced diet, the various elements that are used to make ACTYR contributes to a better thyroid-function.

**Composition for 1 capsule:** Guggul Resin Dry Extract (Commiphora muku Engl):150 mg • L-Tyrosine : 150 mg • Magnesium : 64 mg • Fucus vesiculosus L.
