

# LONGEZYME

## Digestive enzymes

Ref : 4014 NUT/PL/AS :AS/944/35

### Presentation :

Box of 60 capsules

### Recommended dose :

1 capsule twice daily during meals

### Do not use :

*This product is not recommended for gastric or duodenal ulcers.*

*Papain naturally contains sulphites. The product is not recommended for sulphite intolerance.*

*The product may contain traces of gluten and soybeans due to the fermentation media used for the production of enzymes by fungi.*

**LONGEZYME** is a dietary supplement to bring a wide variety of enzymes of plant origin to help digest proteins, fats and carbohydrates.

Enzyme supplementation is an aid in digestion and contributes to better absorption of nutrients.

### Why supplement digestive enzymes?

- With age the natural production of digestive enzymes decreases. This enzyme deficiency contributes to the onset of chronic pathologies and risks of food intolerance
- Studies have reported that proteolytic enzymes process of wound healing and trauma and contributes to diminish pain and inflammation.

### Precautions for use:

- This product is not recommended in case of gastric or duodenal ulcer
- Papain naturally contains sulphites. The product is not recommended for intolerance to sulphites
- The product may contain traces of gluten and soybean from fermentation the production of enzymes by fungi

**Composition for 1 capsule :** Enzyme Complex : 170 mg (amylase, protease, bromelain, glucoamylase, papain, lactase, alpha-galactosidase, lipase, phytase, cellulase, hemicellulase, pectinase) • Tapioca starch (bulking agent) : 50 mg • Maltodextrin (bulking agent) • Hydroxypropylmethylcellulose (capsule) • Magnesium stearate, silicon dioxide (anti-caking agents).
